Dear Sir/Madam

RE: APPLICATION FOR SOFTWARE DEVELOPER INTERN

I am an entry-level software developer with diverse skills in different programming languages. As a fit developer, I pay attention to details and am curious to learn something new all time, I was excited to see your advertisement about Software Development on LinkedIn and I am confident that with all my skills I will be a beneficial asset to the company.

I am proficient in backend skills which I have implemented in building a school system application that has the capability of saving, querying the database, and presenting the data to the client. My accomplishments are highlighted on my CV.

Apart from technical skills, I possess soft skills which will play hand in hand in my technical growth. Some of these skills are;

- Proficient in team collaboration and meeting deadlines.
- Excellent written and communication skills.
- I am able to identify and solve problems and troubleshooting.
- Good in leading team members leading to a proactive team.

Thank you for your time and consideration, I look forward to having a direct conversation with you soon. It will be my greatest pleasure to work with your great team.

Yours sincerely,
Beth Wanjiru Kamau.
